NOVEMBER 2004

EAA CHAPTER REFERENCE LIBRARY

EAA has a mountain of good information available for Chapter members and officers and it is now available on-line. All members should check out the EAA Chapter Reference Library by going to:

www.eaa.org/chapters/resources/reference/default.asp.

This site offers 34 reference papers, specifically written to help EAA Chapters.

In addition to the EAA Chapter Reference Papers, there are also several other resources on the EAA Chapter's Home Page: <http://www.eaa.org/chapters/default.asp>

"If you ever need anything from the EAA Chapter Office, please do not hesitate to contact us, we are here to serve you." You can contact the EAA Chapter Office Staff at 888 322-4636, ext. 4876 or e-mail them at: chapters@eaa.org

ANOTHER IMPORTANT WEB SITE

The AOPA web site, www.aopa.org, is another "must" for pilots. Right at the top of the home page is a scrolling list of current and anticipated TFRs with links to the NOTAM, the "English" version of that NOTAM and often, a graphic. DTN Weather (both textual and graphics) is on tap. The site contains tons of aviation reference material, easily searchable. There are also links to the Air Safety Foundation, which has a treasure trove of safety and educational material. Don't be one of those pilots that stop learning (except from their mistakes) when they get their certificates. You owe it to yourself to spend some time checking this one out!

And if you're not a member, join today (you can do it on the web site). AOPA is our heavy hitter in Washington and the State Capitols - support it!

NOVEMBER MEETING LAST YOUNG EAGLE RALLY FOR '04

The November meeting is scheduled for Saturday, November 13 at 10 AM at Galt. We will be electing a President and Vice President for the term 2005-2007.

Following the meeting (11-4PM) we'll have our last Young Eagle Rally for this year. Mid November can be autumn, or it can be winter. Let's hope for a nice day to finish out the season.

OCTOBER ACTIVITIES

The Oct. 9TH Chilifest, Bonfire and Hayride went really well. It was a perfect autumn evening and about 30 people showed up. It was fun sampling the 8 or 10 different chilies offered by members - every thing from a mild "white chili" (chicken and navy beans) to a Tex-Mex belly burner that had eyes watering and flames shooting out of nostrils, ears and etc...!

The Galt IAC members had a good turnout for their Introduction to Aerobatics Seminar Oct. 16th. About a dozen showed up and most lingered after the presentation to ask questions and to log a little "hangar flying".

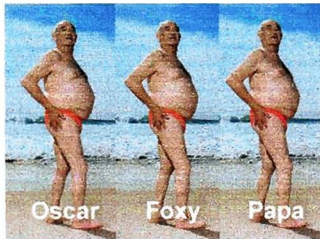

Wednesday, Oct. 27, was a fun evening for several EAA 932 members and Galt Airport Staff. First, about twenty of us met at *Pirro's* in Woodstock for dinner, then we marched up the hill to the Opera House for a great evening of *Classic Rock*. The show was produced by Galt Airport owner Micael Stanard and featured two bands, *Stockwood* and *Pal Joey*. Both were featured at this year's *Flyers & Tires*.

"...Ah, Center, it looks like we've lost Number One...."

Detroit based Kalitta Air had a B-747-200 give new meaning to the phrase, "losing an engine". The Cargo flight originated at ORD, lost the engine over Lake Michigan and made an emergency landing at DTW.

THREE RETIRED PILOTS by JHs

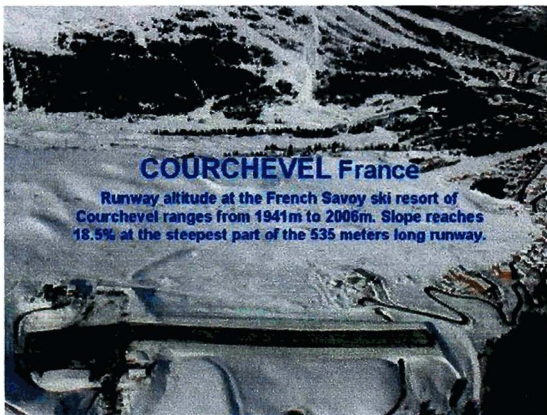

The boys are looking at old scrapbooks and reminiscing.

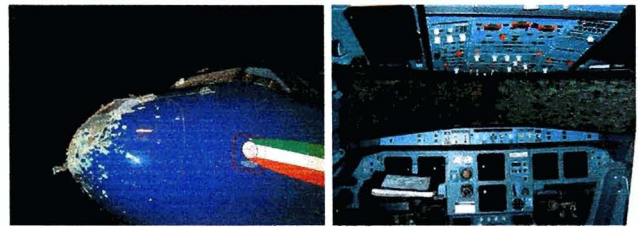

Oscar: Student days were great – learning how to handle emergencies, winter flying, using big airports, even a little water flying!

Foxy: Then we got our licenses and began to explore the world. We traded the '\$100 hamburger' for the '\$1,000 crepe'. We began to learn the things they don't teach you in school like, sometimes its better not to takeoff and land into the wind.

Papa: Stepping up to the airlines introduced us to the jets, 'glass cockpits' and real 'all weather flying'.

Papa: But in the end we learned, 'the more things change, the more they stay the same'!

To view this in Adobe (.pdf) go to www.eaa932.org
